

Announcing the release of two new Georgia land lottery books

By Paul K. Graham

1805 Georgia Land Lottery Persons Entitled to Draws

and

1805 Georgia Land Lottery Fortunate Drawers and Grantees

The Books *1805 Georgia Land Lottery Persons Entitled to Draws*

Alphabetical index to 24,000 people who participated in the 1805 Georgia Land Lottery

Contains the name of almost every head of household living in the state in the year 1803

Includes the data found in Virginia Wood's *1805 Georgia Land Lottery*, but, with the aid of computers, corrects major errors and omissions found in her 1964 transcription

1805 Georgia Land Lottery Fortunate Drawers and Grantees

Compilation of the land lottery and grant records for all of the 4,580 land lots distributed through the 1805 Georgia Land Lottery process, including fractional lots and islands

Organized geographically, by original county, land district, and land lot

Both books published with a grant from the R. J. Taylor, Jr., Foundation

Genealogy Research

Without census records to guide research, it is difficult to track the movements of families over time. This index fills the place of Georgia's 1800 U.S. Census by establishing the county of residence for most of the people living in the state in the year 1803.
